1984

TEAM EKAL

Ekal Professional is a leading source for professional and personal Tools for hair styling needs since 1984 . Our Professionals team continually strives to bring you innovative Products to help you achieve the look you want. They are very open in discussions to produce new designs of shears with different ideas of eye-catching look.

Ekal is continuously expanding the company business to satisfy beauty care industry needs with the help of teams which is mixture of young and experienced members..

MISSION STATEMENT

EKAL design and manufacture high quality stainless steel instruments to the requirement of our customers for the use in diverse industries.

CERTIFICATION

EKAL is an ISO 9001 : 2000 certified & CE approved company which ensures that each an every instrument being produced at "EKAL" is crafted to its perfection.

QUALITY POLICY

Our QA (Quality Assurance) Department checks the quality of instruments during the every stage of manufacturing and finally before it is packed, to ensure that every tool we produce must be of high quality.

All our products are manufactured in compliance with the international standards.

As there is infinite range of Scissors and Manicure & Pedicure Instruments we tried to put the most common range in our catalogue. However if some articles are missing or if you require any specific sizing or finish (Polish, Satin or Sand Finish) we will be glad to hear from you in order to manufacture them. Please contact us and we'll be happy to give you a quotation.

PRODUCTION SYSTEM

At Ekal Production Begins with selection of right stainless steel which will be forged by our experts for desired shape and then machined to perfection before the heat treatment.

We use different stainless steel like AISI 420 and AISI 440 of Pakistan or Japanese origin, depending on the kind of instrument that we need to produce.

Quality control after every stage of value edition is the key to our consistent quality so all our instruments are inspected by the experts after every process before passing on to next stage. Our rigid process of quality control helped us achieving number of satisfied customers in more than 50 countries all over the world.

All the instruments go through ultra sonic cleaning after polishing before it is passed on to marking department for either laser marking or chemical etching and then instruments are packed according to choice of customer.

We offer bulk, PVC Pouch, blister and Tie Card packing depending on the requirement of our customers
